Once the user has been created, they will receive two emails: one with the new user's username and another with a temporary password. Upon the new user's initial login, they will be required to electronically sign their name as it was entered by the Master User or LE Manager, then the Medical Marijuana Use Registry will direct the user to take an online training.

Upon completion of the training, the Office of Medical Marijuana Use will be notified and will review and approve the new user.

The new user will then receive an email stating they have access to the Medical Marijuana Use Registry.

All users (Master User, LE Managers and Law Enforcement officers) must take the online training annually in order to continue to have access to the Medical Marijuana Use Registry.
