Understanding the Amount Available Calculation Page

This guide will help patients and caregivers understand the Amount Available Calculation page on the patient's profile. The Amount Available Calculation page will provide information on how much product has been dispensed to a patient within the supply period, how much available product the patient can be dispensed, and their dispensation history.

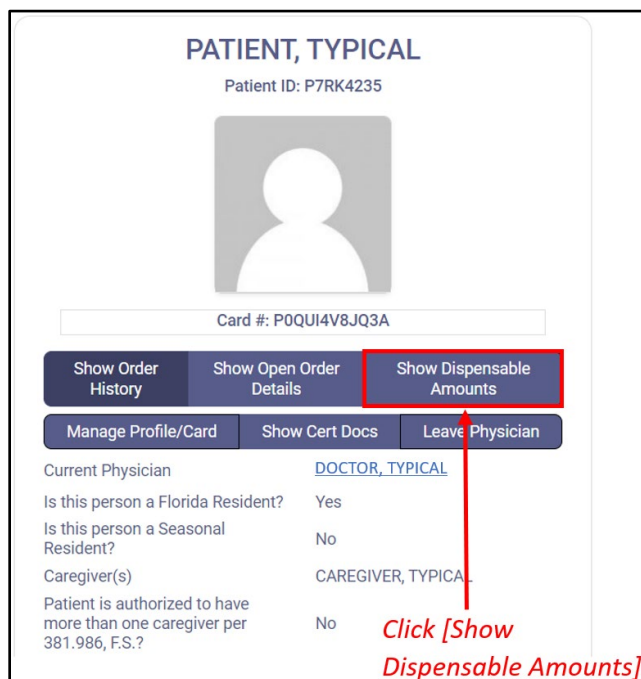

Step 1: Log into the Medical Marijuana Use Registry, MMURegistry.FLHealth.gov.

**If you do not remember your password, learn how to reset it by [clicking here](#).*

Step 2: Click the "Manage Your Information" drop-down menu option. Then click "Patient Profile."

Step 3: You are brought to the patient profile. Click "Show Dispensable Amounts."

Step 4: The Calculations page will open showing information for all routes of administration within the patient’s certification.

Patient’s real-time dispensable amounts per section 381.986, Florida Statutes.

The information contained in the table below is being provided for informational purposes only. This table consists of real-time data generated directly from the Medical Marijuana Use Registry. All data used to calculate the amounts therein are based on your current order as entered by your qualified physician and the dispensations made by the MMTC when you purchase medical marijuana or marijuana in a form for smoking.

70-Day Marijuana Dispensation History: This amount is calculated as the sum of your total dispensation history over the past 70 days for all routes and is based on the dispensations made by the MMTC when you purchase marijuana.

Marijuana Amount Eligible to be Dispensed: This number is the aggregate amount of marijuana currently eligible to be dispensed and is calculated as the difference between the aggregate amount permitted by your current order and your total aggregate dispensation history over the past 70 days. The data used in this calculation is based on your current order as entered by your qualified physician and the dispensations made by the MMTC when you purchase marijuana.

All data used to calculate the amounts therein are based on your current order as entered by your qualified physician and the dispensations made by the MMTC when you purchase medical marijuana or marijuana in a form for smoking.

Possession Limit: The "Possession Limit" is the maximum amount of marijuana in a form for smoking a patient is allowed to carry at one time. The possession limit is calculated by multiplying the 35-day supply limit of marijuana in a form for smoking by 1.6 (e.g., 1.6 * 2.5 oz = 4.00 oz). The possession limit for all smoking orders is 4.00 oz unless there is an approved exception in place.

35-Day Smoking Dispensation History: This amount is calculated as the sum of your total dispensation history over the past 35 days and is based on the dispensations made by the MMTC when you purchase marijuana in a form for smoking.

Smoking Amount Eligible to be Dispensed: This number is the amount of marijuana in a form for smoking currently eligible to be dispensed and is calculated as the difference between the amount permitted by your current order and your total dispensation history over the past 35 days. The data used in this calculation is based on your current order as entered by your qualified physician and the dispensations made by the MMTC when you purchase marijuana in a form for smoking.
