

Understanding the Registry Patient & Caregiver Password Reset Instructions

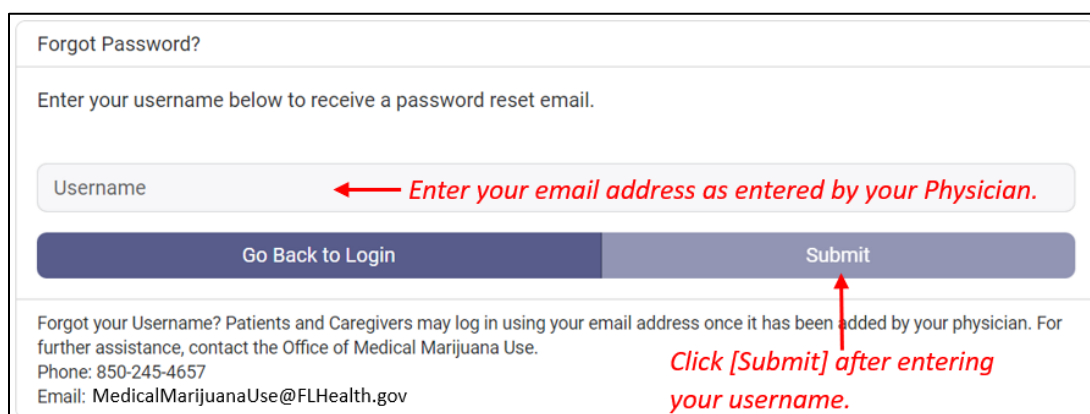

Step 1: Navigate to the Medical Marijuana Use Registry, <https://MMURegistry.FLHealth.gov>. Click "Login."

Step 2: You are brought to the login screen. Click "Forgot Password."

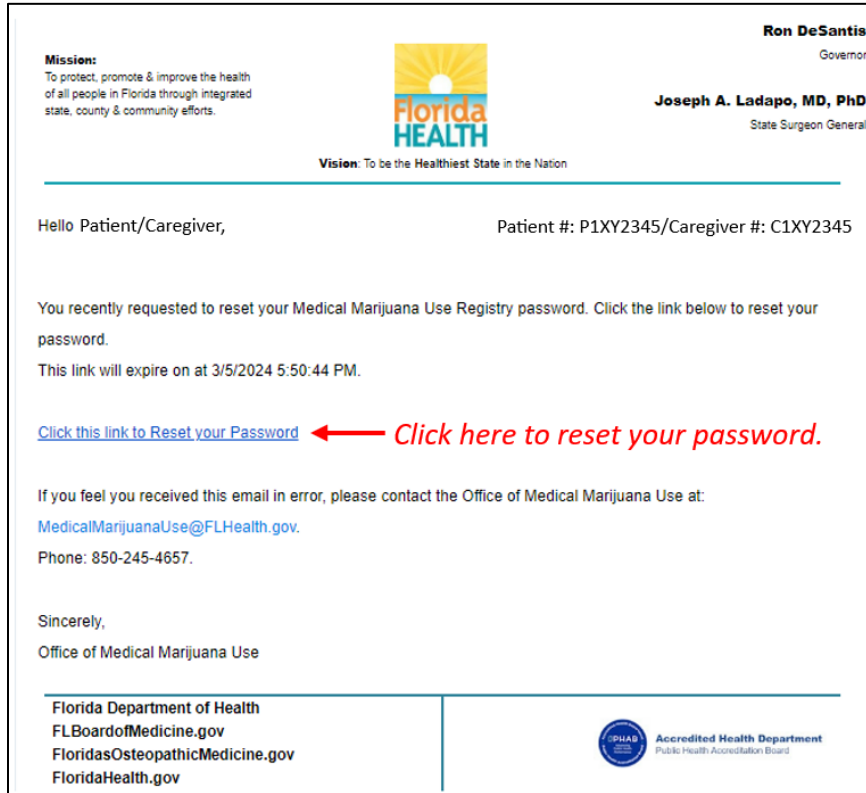

Step 3: Enter your username (this will be the email address that your Qualified Physician entered when creating your profile in the Registry), then click "Submit." If you entered your username correctly, an email will be sent to the email address on file.

Step 4: Locate and open the email with "Medical Marijuana Use Registry User Account Password Reset" as the subject line. This email contains a link to reset your password.

*If you do not find the "Medical Marijuana Use Registry User Account Password Reset" email, [click here](#) for additional information.

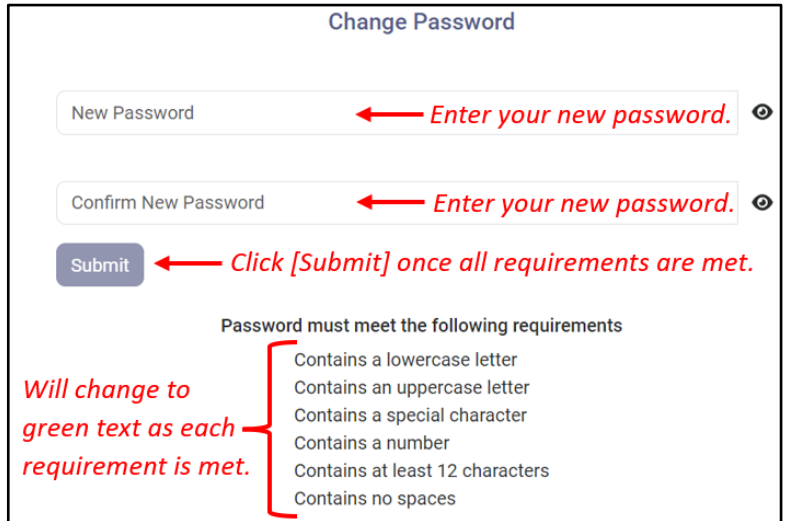

Step 5: Click on the Registry link provided in the email. This link takes you to the Registry’s home page.

Step 6: Create your new password. You need to add a password to your Registry account that is unique to you. It must be at least 12 characters long, may not be the same as your previous five passwords, and must include at least one of each of the following:

- a) Lowercase letters (a-z)
- b) Uppercase letters (A-Z)
- c) Numbers (0-9)
- d) Special characters (e.g., !"#\$%&*+)

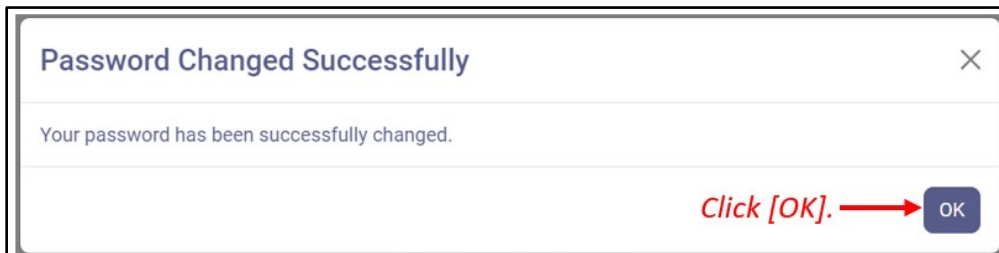

*You can click the eye icon (👁️) to show what you are typing.

Step 7: Confirm your new password.

Step 8: Click "Submit."

Step 9: A message box will pop-up stating, "Your password has been successfully changed." Click "OK." You will then be redirected to the Registry’s login page. You must sign into the Registry using your new password.
