

Understanding the Registry

Create a New Caregiver

Caregivers can be added to the Medical Marijuana Use Registry to a patient's profile, even if that caregiver is already an existing patient in the Registry. On the occasion that your patient and their caregiver share a single email address, the email address should **only** be added to the caregiver's profile.

Step 1: Log into the Medical Marijuana Use Registry <https://mmuregistry.flhealth.gov/>.

If you do not remember your password, you may reset it yourself by selecting [Forgot Password](#) on the Login page. For step-by-step instructions to reset your password, see our [Resetting My Password](#) guide on our Know the Facts MMJ page (<https://knowthefactsmmj.com/registry/#instructional-guides>).

Step 2: Navigate to the "Patient Management" menu option at the top of the page and click on "My Patients."

Step 3: Select the patient who will have the caregiver.

Step 4: Click "Edit Demographics."

Step 5: Click "Add New."

Step 6: Respond “Yes” or “No” to whether the caregiver is a qualified ordering physician or employed by/has economic interest in a medical marijuana treatment center or marijuana testing laboratory.

The screenshot shows a form titled "Qualified Caregiver" with a close button in the top right corner. The main text asks: "Is this caregiver a qualified ordering physician or employed by/have economic interest in a medical marijuana treatment center or marijuana testing laboratory?". At the bottom, there are two buttons: "YES" and "NO".

Step 7a: Select “Yes” if the caregiver has a Social Security Number (SSN).

The screenshot shows a form titled "Verify the Caregiver Using Social Security Number". The question is "Does this Caregiver have a Social Security Number?". There are two radio buttons: "Yes" and "No". A red arrow points from the text "Step 7a: Select 'Yes'" to the "Yes" radio button. At the bottom, there are two buttons: "GO BACK" and "SUBMIT".

Step 7b: Enter the caregiver’s SSN. Do **not** include dashes or spaces.

The screenshot shows the same form as in Step 7a, but with an input field for the SSN. The label "SSN" is above the field. A red arrow points from the text "Step 7b: Enter SSN" to the input field. At the bottom, there are two buttons: "GO BACK" and "SUBMIT".

Step 8a: Select if the caregiver has a Florida Driver's License or Florida State Identification (ID) Card. (If the caregiver does not have Florida Driver's License or Florida State ID Number, see our [Create New Seasonal Caregiver](https://knowthefactsmmj.com/registry/#instructional-guides) guide on our Know the Facts MMJ page (<https://knowthefactsmmj.com/registry/#instructional-guides>).

The screenshot shows a form titled "Verify the Caregiver Using DL / State ID #". The question is "Does this Caregiver have a Florida Driver's License or Florida State ID?". There are two radio buttons: "Yes" and "No". A red arrow points from the text "Step 8a: Select 'Yes'" to the "Yes" radio button. At the bottom, there are two buttons: "GO BACK" and "SUBMIT".

Step 8b: Enter the caregiver’s Florida Driver's License number (FL DL #) or Florida State Identification (ID) Card number (FL State ID #).

Step 9: Enter the caregiver’s date of birth (DOB).

Notification appears requesting to verify that the information returned matches the person you want to enter in the Medical Marijuana Use Registry.

Important notes: If the caregiver is an existing patient, the caregiver profile and the caregiver's patient profile will be automatically linked. This means that when the caregiver logs into the Medical Marijuana Use Registry he/she will need to take the mandated Caregiver Quiz. The caregiver will have access to their patient profile/application, their caregiver profile/application, and the profile/application for whom they are a caregiver.
