Florida's Official Source for Medical Use

Know the Facts
Patients

How it Works:

- 1 A qualified physician diagnoses a patient with a qualifying medical condition.

If the patient is younger than 18 or terminal, a second physician must concur and this determination must be reflected in the patient's medical records.

- 2 The physician enters the patient's information and order into the Medical Marijuana Use Registry (MMUR).

If the patient has a caregiver, they must also be added into the MMUR.

- 3 The patient and their caregiver must then apply for a MMUR Identification Card.

- 4 The patient may fill the physician's order at any approved Medical Marijuana Treatment Center or via delivery.
