

WEEKLY UPDATE – April 20, 2018

The Florida Department of Health (DOH) continues to focus on the health and safety of Florida's families and is dedicated to ensuring patients have safe access to low-THC cannabis and medical marijuana. We are pleased to provide this weekly update on the DOH Office of Medical Marijuana Use's (OMMU) diligent work implementing the many requirements in Amendment 2 and those set by the Florida Legislature in section 381.986, F.S. (2018). The Department of Health has appealed the April 11, 2018, order entered by Judge Karen Gievers regarding home grow. Judge Giever's order lifting the stay only applies to the Plaintiff, Joseph Redner. The department has filed a motion to reinstate the stay. At this time, there has been no change to the general prohibition on home grow. The department remains committed to ensuring that all medical marijuana and low-THC cannabis is dispensed according to the law.

General Background Information

Medical Marijuana ID Card Application Process: Once a patient has been diagnosed by a qualified ordering physician and entered into the Medical Marijuana Use Registry, they can immediately begin the identification card application process. The department encourages applicants to complete the process online as this

decreases processing time. Patients receive an email from OMMU once their email is added to the registry by their qualified ordering physician which directs them to the application. Once an application is reviewed and approved, patients receive an approval email which can be used to fill an order at an approved MMTC while they await their physical card.

Medical Marijuana Use Registry: All orders for medical marijuana are recorded and dispensed via the Medical Marijuana Use Registry. The Medical Marijuana Use Registry is accessible online, with real time information to ordering physicians, law enforcement and medical marijuana treatment center staff. Patients and caregivers may also access the Medical Marijuana Use Registry to submit a Medical Marijuana Use Registry Identification Card application, and check the status of their application.

Medical Marijuana Treatment Centers: Approved medical marijuana treatment centers are the only businesses allowed to grow, process, or sell medical marijuana in Florida. Each medical marijuana treatment center must receive authorization at three stages, (1) cultivation authorization, (2) processing authorization, and (3) dispensing authorization, prior to dispensing low-THC cannabis or medical marijuana. Medical marijuana cannot be mailed.
