Medical Marijuana Treatment Centers

The department is charged with the licensing and regulation of medical marijuana treatment centers (MMTCs). MMTCs are vertically integrated businesses, and are the only businesses authorized to cultivate, process, and dispense low-THC cannabis and medical marijuana.

After initial licensure, each MMTC must receive authorization at three stages prior to dispensing low-THC cannabis or medical marijuana: (1) cultivation authorization, (2) processing authorization, and (3) dispensing authorization.

MMTCs dispense low-THC cannabis and medical marijuana to qualified patients and caregivers as recommended by their qualified physician at approved dispensing locations and via delivery. Medical marijuana is dispensed in milligrams of active ingredient tetrahydrocannabinol (THC), and low-THC cannabis is dispensed in milligrams of active ingredient cannabidiol (CBD).

General Background Information

Medical Marijuana ID Card Application Process: Once a patient has been diagnosed by a qualified physician and entered into the Medical Marijuana Use Registry, they can immediately begin the identification card application process. The department encourages applicants to complete the process online for fastest service. Patients receive an email from the OMMU once their email address is added to the registry by their qualified physician, which directs them to the application. Once an application is approved, patients instantly receive an approval email which can be used to fill an order at an approved MMTC while the physical card is printed and mailed. Medical Marijuana Use Registry: All orders for medical marijuana are recorded and dispensed via the Medical Marijuana Use Registry. The Medical Marijuana Use Registry is accessible online, with real time information to qualified physicians, law enforcement, and medical marijuana treatment center staff. Patients and caregivers may also access the Medical Marijuana Use Registry to submit a Medical Marijuana Use Registry Identification Card application, check the status of their application, and review orders and dispensations.
