

Understanding the Registry

Create New Patient – Seasonal Residents

Before creating a new patient profile in the Medical Marijuana Use Registry, you must ensure the patient does not already have a patient profile. If you search for a patient in the Medical Marijuana Use Registry and no existing patient profile was found, you will need to add the patient to the Medical Marijuana Use Registry and certify the patient is in compliance with 381.986 (4), Florida Statutes.

Step 1: Log into the Medical Marijuana Use Registry <https://mmuregistry.flhealth.gov/>.

If you do not remember your password, you may reset it yourself by selecting [Forgot Password](#) on the Login page. For step-by-step instructions to reset your password, see our [Resetting My Password](#) guide on our Know the Facts MMJ page (<https://knowthefactsmmj.com/registry/#instructional-guides>).

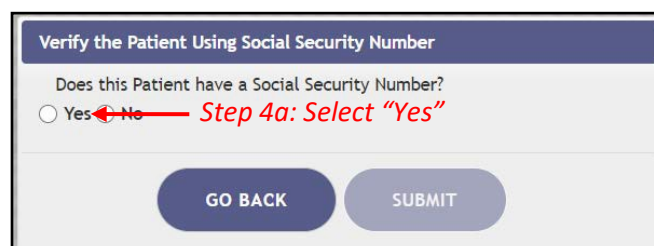

Step 2: Navigate to the “Patient Management” menu option at the top of the page and click on “My Patients.”
